- **Actions to stop doing:**
  - The Team should stop holding scrum meetings at 10:00 am
    - One of our members recently got a job and he is unavailable before 7:00 pm.
  - The team should stop holding scrum meetings past 15 mins.
    - In some of our meetings we go past the 15 min mark which defeats the purpose of the scrum meetings.
- **Actions to start doing:**
  - The team will start to hold scrum meetings after 7:00 pm
    - Our new scrum meetings will occur at 8:30 pm
  - The team should schedule more work sessions
    - It is better for communication and we can encourage each other to work more effectively with less distractions
- **Actions to keep doing:**
  - The team will keep working at the same pace
    - We were working at a good pace balancing the amount of hours we put into the project. We do not overwork ourselves or underwork.
  - The team will keep communicating as we have been doing
    - We have been very well communicated, especially since one of our teammates is working and we have managed to keep the line of communication open.
- **Work completed/not completed:**
  - Work completed:
    - **User Story 1:** As a user I want to see a simple UI that works on all iphone sizes.
    - **User Story 2:** As a user I want to see buttons clearly marked and go into different pages when clicked.
  - **not completed:**
- **Work completion rate:**
  - We completed 2 user stories.
  - 24 hours of work has been completed.
  - 6 days of work completed.
  - average of (1 story)/ (3 days).
  - average of (4 hours) / (1 day)
